

Dear Parents and Carers,

Welcome back to an exciting Summer term, we have lots of fantastic learning opportunities for the children. Our lovely homework books will be continuing this term and will be handed out each Friday, ready to be in the following Wednesday. We expect the children to gain more independence when handing in homework in preparation for Year 3. Please help them with this by making sure they are organised.

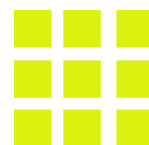

PE sessions this term will just be on a Wednesday, children will be expected to have their PE kits in school everyday.

Dates for your Diary

Friday 3rd May 2019 - Helping Hands May Fayre 3.20-5.20pm.
Monday 6th May 2019 - Bank Holiday (School closed).

Parent Information Leaflet

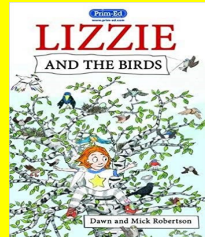

'Striving for Excellence'

Year 2 - Summer Term 1 2019 - Theme: Wriggle and Crawl

Science

Does having a healthy lifestyle help you to fly?

In Science, we will be learning about animals and humans. We will explore what animals need to survive and stay healthy, as well as the importance of exercise, nutrition and hygiene for humans.

English - How important are friendships?

Our new book for this term is 'Lizzie and the Birds', we will learn all about Lizzie and her Dad and the friendships that help their lives. We will be giving the children lots of opportunities to apply all the skills they have learnt this year and will be writing things such as character descriptions, poems, instructions, letters and stories. There will be amazing links with our English book and our learning in Science and Theme, which will help us understand how Science affects everything we do.

SATS Practice

Calling all mathematicians!

We will be practicing our number and calculation skills this term in the run up to SAT's week. Multiplication, division, addition and subtraction, we will be doing it all in order to get ourselves ready. We will also be reading lots of different texts and answering questions about what we have read. It would be really helpful, if you could practice this at home!!

Mathematics

Our focus this term is on becoming brilliant mathematicians who are confident with using mathematical strategies to help us to solve problems.

Theme - Flight

Have you ever wondered how aeroplanes fly..... we will be finding out!

To link in with our exciting new book our topic this term will include learning about all things that fly! We will be looking at the first female pilot and writing a fact file, locating different airports and capital cities on a map, observing a bird's feather and drawing the details and finally finishing our topic by designing and creating our own flight object! It is not just machines that fly! We will be thinking about how animals have evolved their ability to fly.

RE and PSHE

Do you have a book which means a lot to you?

In RE we will be looking at different religions special books and what they mean to people.

Have you ever made a decision that made you think and change the way you act?

PSHE this term is all about making choices, learning about good and bad choices and how the choices we make affects others.
