## **Maths Knowledge Mats**

**What your child must know to help them with their Mathematics!**

Dear Families,

Please find attached a mathematical knowledge mat for your child. These have been designed to summarize the key learning for your child's year group. They cover the key mathematical knowledge that every child must know and understand in order to be successful Mathematicians.

This will be used by teachers in class to help your child refer to key concepts and knowledge for the current year. We thought you might like to have a copy at home for when you are supporting your child in their learning- maybe pop it up on the fridge, in their bedroom or somewhere that you and your child can access easily.

Thank you for your continued support at home for your child's Mathematics learning.

Mrs Scott

Maths Leader
