

## How do we promote Spiritual, Moral, Social and Cultural learning at Nine Acres Primary?

Through our everyday teaching and our creative Cornerstones curriculum, the Living Difference R.E curriculum and HIAS PSHE curriculum, all teachers plan and deliver lessons that equip children to be thoughtful, caring and active citizens in school and the wider community.

Our children have a broad and balanced curriculum that promotes Spiritual, Moral, Social and Cultural development across all year groups that includes:

- Educational visits
- Philosophy for children lessons in Years 3, 4 and 5.
- Extending learning outside of the Classroom
- We learn to ask thoughtful questions and value the opinions of others in all lessons.
- We have visitors in school that allow us to understand our wider community, for example our Citizen to Citizen project with a group of veterans.

## Our Social learning

Isle of Wight Day whole school visit to Carisbrooke Castle

Visits and trips relating to the learning taking part in the classroom - making learning real.

Visitors to school to enhance learning and life experiences, for example a survival expert coming in to talk to children about trekking across Antarctica.

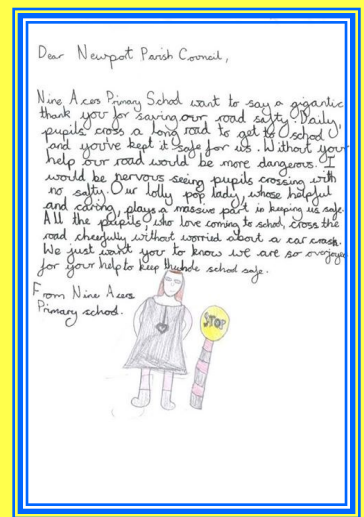

Learning how to look after animals by having ducklings hatch in EYFS.

We have an on site Child and Family worker who works closely with our families and children to support with any difficulties.

## Our Moral Learning

- Assemblies on: Cyber-bullying, Road safety, British values and democracy, Prevent Duty
- We hear the pupil voice by having an established Pupil Leadership Team who vote on important school decisions. For example, they developed our school values.
- Mufti days to raise money for charity.
- School values system, where the emphasis is on showing how we value everyone and what they contribute to school life.
- We are actively involved in Poppy selling and have received an award of achievement for this from the British Legion.
- What do you want to be when you grow up day which was a career focus.
- Anti-bullying week.
- Visiting the Houses of Parliament to gain a better understanding of democracy in Year five.
- Visiting the homeless bus and working to raise money for local projects.

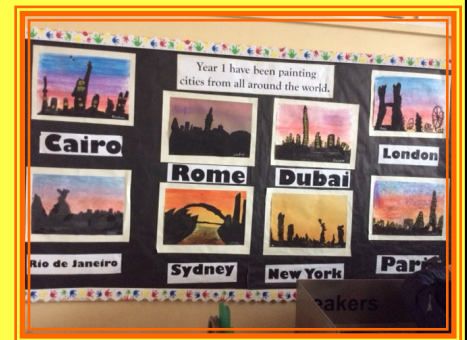

## Our Cultural Learning

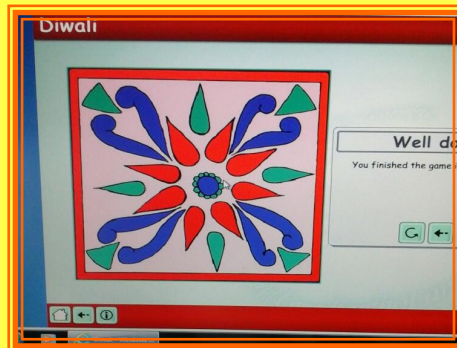

- We have achieved the British Council International School Award for extending and embedding internationalism across school.
- We are involved in making international links and host a German teacher visiting for two weeks in the Spring term.
- From EYFS, all children receive weekly German lessons where children not only learn how to speak, read and write in German but children also gain an understanding of a different way of life.
- We host Belgium students in Spring term.
- Our school value of Citizenship means we are proud of our school and our community and everyone in it. We love learning about our local and national community.
- Our school value of Aspiration means we celebrate everyone's right to have and follow their dreams.

# Our Spiritual Learning

Learning about different religions and practices around the world i.e. celebrating Diwali, Christmas, Eid.

Our values of aspiration, care, respect and creativity allow the children to explore different beliefs about themselves and others and allows them to ask questions and challenge other people's thinking.

Visits to the church to celebrate special events in the Christian calendar.
